Reading, MA, January 29, 2009 – Huckleberry Hill students from Ms. McManus and Mrs. Noce's fourth grade classes learned about electrical safety at Reading Municipal Light Department (RMLD) on a recent field trip to the Reading utility. RMLD Community Relations Manager Priscilla Gottwald and Community Relations Assistant Bobbi Maillett reminded the students what not to do around wires and substations, then led the tour to the Meter Department and Control Center. The captivated groups took the time to pose in the RMLD lobby. (back row, l-r): Paraprofessional Jean Maio, Ms. McManus, RMLD Community Relations Manager Priscilla Gottwald, RMLD Community Relations Assistant Bobbi Maillett and Mrs. Noce amongst the fourth grade students donning RMLD hardhats.
