RMLD

Make the GREEN CHOICE

You can make an active choice to benefit the environment by participating in GREEN CHOICE. It's a simple, affordable way to support electricity production from renewable energy sources such as wind, solar, hydro, geothermal, biogas and biomass.

The GREEN CHOICE idea

RMLD developed GREEN CHOICE to provide you with a convenient way to support renewable energy as a power source for electricity generation.

Traditional power plants in our region rely heavily on fossil fuels such as oil, natural gas and coal to produce electricity. In addition to being subject to unstable costs and supply issues, these fuels produce significant environmental pollutants.

GREEN CHOICE allows you to financially support power plants fueled by renewable energy sources such as wind, solar, hydro, geothermal, biogas and biomass.

How it works

GREEN CHOICE is available to all customers receiving service under any RMLD rate. Participation is completely voluntary.

Those who make the GREEN CHOICE pay as little as \$3 each month to support the production of 100 kilowatt-hours from

renewable energy sources in New England. Each block of 100-kilowatt-hours costs \$3, and you may buy as many blocks as you wish.

The cost is an additional charge on your monthly bill. You may end your participation at any time by giving us 30 days' notice.

Will my power be green?

When you make the GREEN CHOICE, you will guarantee that renewable energy is added to New England's power grid. However, it is physically impossible to distinguish and deliver energy to specific homes or businesses.

How to sign up

To make the GREEN CHOICE, please speak with one of our Customer Specialists at 781-944-1340 or e-mail us at customerservice@rml.com

Visit www.rml.com or contact an RMLD Customer Specialist for the complete GREEN CHOICE filed rate and all Terms & Conditions for service.
